

Name _____

Addition and Subtraction

Directions: Read the problems and solve the equations.

Susie made 20 cookies. Some of the cookies are chocolate and some are gingerbread cookies. How many cookies could she have made of each kind? Fill in the missing part of each equation.

<u> </u> + <u> 5 </u> = 20	<u> 12 </u> + <u> </u> = 20	<u> </u> + <u> 11 </u> = 20
<u> 9 </u> + <u> </u> = 20	<u> </u> + <u> 2 </u> = 20	<u> 3 </u> + <u> </u> = 20
<u> </u> + <u> 14 </u> = 20	<u> 16 </u> + <u> </u> = 20	<u> </u> + <u> 19 </u> = 20
<u> 6 </u> + <u> </u> = 20	<u> </u> + <u> 10 </u> = 20	<u> 8 </u> + <u> </u> = 20
<u> </u> + <u> 4 </u> = 20	<u> 7 </u> + <u> </u> = 20	<u> </u> + <u> 13 </u> = 20

John ate some of Susie's cookies. Finish the equations to show the different amount of cookies John could have eaten.

20 - <u> 5 </u> = <u> </u>	20 - <u> 2 </u> = <u> </u>	20 - <u> 4 </u> = <u> </u>
20 - <u> 12 </u> = <u> </u>	20 - <u> 16 </u> = <u> </u>	20 - <u> 6 </u> = <u> </u>
20 - <u> 3 </u> = <u> </u>	20 - <u> 8 </u> = <u> </u>	20 - <u> 17 </u> = <u> </u>
20 - <u> 9 </u> = <u> </u>	20 - <u> 11 </u> = <u> </u>	20 - <u> 13 </u> = <u> </u>
20 - <u> 10 </u> = <u> </u>	20 - <u> 19 </u> = <u> </u>	20 - <u> 15 </u> = <u> </u>

Ben and Jenny worked together to bake hundreds of cookies for the bake sale. Add up the different amount of cookies they baked.

Try to use mental math to solve the problems.

20 + 75 = <u> </u>	90 + 90 = <u> </u>	245 + 150 = <u> </u>
125 + 50 = <u> </u>	610 + 85 = <u> </u>	390 + 80 = <u> </u>
90 + 315 = <u> </u>	320 + 135 = <u> </u>	550 + 150 = <u> </u>
85 + 55 = <u> </u>	205 + 755 = <u> </u>	360 + 235 = <u> </u>
80 + 80 = <u> </u>	430 + 65 = <u> </u>	415 + 345 = <u> </u>
